JUDGE MULROY DIES SUDDENLY

day morn saw the close of a long life of political life when Judge John Mulroy passed away suddenly at his Grass Valley home at 2:30 a. m.

He was born in Grass Valley August 1864 of pioneer parents. He has made that city his home ever since.

He took his oath of office as justice of the Peace of Grass Valley in 1895 and has been reelected to that office ever since.

He is survived by three sisters, Mary, Jennie and Katherine Mulroy all of whom reside in Grass Valley. Three brothers preceeded him in death.

Judge Mulroy taught school for a number of years in Nevada County and at the same time studying to become a lawyer.

Funeral services were held at St. Patricks church Wednesday morning. Holmes_Hooper Funeral Home had charge of the funeral.

His fraternal affiliations were membership in Elks Lodge of Grass Valley and the Half Century Club.

Pall bearers were, Ed Morgan, Ray O'Connor, Oscar Coflin, P. W. Mitchell, W. G. Robson and Joseph Benoit.

0

WOMAN'S CIVIC CLUB TO HOLD FLOWER SHOW

The Woman's Civic Club are making plans for a larger and better flower show than last year. The date set for the exhibit this year is August 26th. The club room will be open from 2 to 5 in the afternoon and 7 to 10 during the evening. This will give everyone a chance to view the beautiful display of fall flowers.

Miss Gertrude Goyne, who has a beautiful yard of her own, has been elected as chairman of the general committee.

All persons desiring to enter flowers for the show are invited to bring flowers in containers with a card bearing the name and grower of the flower. All exhibits are to be brought on morning of the show, or August 26th.

The exhibit was a success last year, many beautiful flowers being shown.

0

CHARLES BERTONCHINI IS FOUND DEAD IN BED

Charles Bertonchini of Greenhorn District was found dead in his bed yesterday by his nephew. He was born in Italy in 1863 but has lived in Nevada City for many years.

A son resides in Fersno.

Mr. Bertonchini was a victim of chronic myocarditis, a heart ailment He had spent 45 years in the United States, the past 40 years being spent in California and 25 years in the Nevada City Section.

The Holmes Funeral Home had charge of the remains. Funeral services were held Tuesday with Rev. Fr. O'Shea in charge of services.

0

PARENT TEACHER OFFICER TO SPEAK HERE TONIGHT

Mrs. C. B. Clark, third vice president of California Congress of Parents and Teachers, Inc., will speak to a group of interested people at Brand's Studio on Friday evening at 8 M. P. She will be accompanied by a number of grand officers.

Musical numbers will be given in conjunction with the speakers.

A special invitation is extended to fathers, mothers, teachers and interested friends of the school children to attend the meeting and learn of the wonderful work of the Association and the many projects they put over for the benefit of the school children.

0

SEEK ASSESSOR' OFFICE

Mr. Hemmel who has ben acting as deputy for Mr. Schroeder is being considered as assessor. Other putting in applications are Bob Carr, W. L. Mobley, Nevada City; Mr. Winburn and Eben Smart of Grass Valley.

UTAH MINING MAN LIKES NEVADA COUNTY

Mr. J. B. Parker of Salt Lake City who is a metallurgist, was a visitor in Nevada City and a caller at The Nugget office Tuesday.

He is quite pleased with Nevada County and remarked it was rare to find towns in a mining district, usually they were out miles from town and with rough roads to traverse.

Mr. Parker has invented a flotation process and is in this section looking for a lease on some promising property.

0

JOHN E. BACH PASSES AT SMARTSVILLE HOME

John E. Bach, 62, passed away suddenly at his home at Smartsville Monday afternoon. He had resided in that place for 43 years, having been born near Sebastopol, one of the old ghost mining towns of Nevada County.

Mr. Bach was foreman of the Interstate Landholding Corporation at Smartsville for a number of years.

He had held every office in the Masonic Lodge No. 89, Rose Bar Lodge, F. & A. M.

He is survived by a widow and three children, John, Ethel and Vernon Bach, and a sister, Mrs. John Toland of Oakland.

W.. R. Jefford and Son have charge of arrangements. Burial took place at Smartsville under auspices of the Masonic Lodge.

0

FOREST FIRES BURN OVER MUCH TERRITORY

Fire Warden Sharp placed 30 men on the fire line of the Pelasant Valley_Anthony House fire in Western Nevada County Wednesday afternoon.

The fire burned over the Williams, Davey, Sullivan, Hartung, Schwartz and McGonigal ranches. It is thought fully 1000 acres were burned over.

A fire burned up on the opposite side of the Yuba River across from Bridgeport, burning over a large territory.

Another fire raging around Oregon House could be easily seen from Nevada City. The last two fires were in Butte County.

0

F. V. THOMAS WINS IN MINE DECISION

Frank V. Thomas of this city has been notified that the state supreme court has upheld a decision of the Nevada County Superior Court in his favor ,in the extensive litigation over what is known as the Old Block Mining Claim and the Old Block Grant Mining Claim, both within the city limits of Grass Valley.

In 1929 T. A. Kohler claimed adverse possession of the property and sought to quiet title. His suit against Thomas resulted in a decision for the latter. The case was appealed.

On August 8th, last, the higher court upheld the decision of the lower tribunal.

0

HOGE DEVELOPMENT CO. SINKING TO NEW LEVELS

Work started last Thursday on the contract of sinking to the 600 level in the Hoge Development Company's mine north east of Nevada City. The three compartment shaft is now down about 300 feet and drifting has been done on several important ledges that show good ore values.

The Hoge Mine constitutes one of the romances of mining, for only a little over two years ago it was a surface prospect discovered by a local miner who spent many months in tracing float to the vein outcrop.

From very limited development and equipment, the company has been shipping high grade ore to the Selby smelters for several months and now has 4,000 tons of ore on the dump and 20,000 tons of ore virtually blocked. Future plans are based upon an assured tonnange of 40,000 tons with a shaft development of 600 feet.

LIBRARY TO HAVE NEW LIGHT SYSTEM INSTALLED

The Library Board have accepted the lighting plan for the library which the Women's Civic Improvement Club proposed for them. The money was raised by the Flower Show last year and by other methods by the ladies.

Patrons of the library will appreciate the new lights as the need has been strongly felt for some time, as the old lighting system has long since served its usefulness.

The money for this improvement has been lying in the club treasury for over a year and the work of improvement will be begun immediately. Lloyd Hiscox, local electrician, has the contract for installing the new lighting system.

Other improvements will be carried on at the same time. The vines and shrubs will be trimmed and needed repairs will be made on the building. The large entrance door has been refinished and shows a marked improvement.

As more money becomes available other improvements will be made as the Club has taken over the library as their project.

0

GILBERT DAVIS PRINCIPAL AT ANGELS CAMP

Gilbert Davis left Thursday for Angels Camp where he will assume his duties as principal of the high school which employes six regular teachers and two special teachers.

Mr. Davis was principal of Washington Grammar School in this city for eight years. Two years ago he was given a leave of absence to attend Chico College from which he graduated in 1930 with Bachelors Degree. Pursuing his education further he spent the past year at Stanford University to attain his Masters Degree. Now he holds a Junior College Certificate.

As principal of the school here Mr. Davis gained the respect of his students and teachers who join with his many friends wishing him well in his new field.

0

PLACER COUNTY MEN FIND PRIZE NUGGET

A vivid find reminiscent of the early mining lays of Placer County was made last week on the upper end of Shirt Tail Canyon. Shealor and A. Watts found an eight-ounce gold nugget embedded in a crevice in bedrock. The men were panning for gold at the time of the discovery

The actual gold value of the nugget is set at $149.50. Shirt Tail Canyon has been mined for more than eighty years.

0

JAMES P. EVANS, MINING MAN, DIED IN SAN FRANCISCO

James P. Evans passed away in San Francisco Snuday, August 16th at the age of 72 years. He was a resident of Nevada City 40 years ago, and was prominent as a mining man, having been associated with several of the local properties around Nevada City.

He was a native of Weaverville, California. Those left to mourn his passing are the widow and a son, John Philip Evans.

Burial took place in San Francisco Tuesdoy morning.

NEW LIFE COMES TO ANCIENT '49ER STREET

J. M. HOFF

IRON Shutters have been thrown back again and California sunshine is once more streaming into a dark brick interior on Commercial Street in Nevada City. The first new assay office established since the present mining revival has has been installed on the ancient thoroughfare of the days of '49 where men once famous in California mining history gambled with dame fortune and mining leases.

J. M. Hoff has had installed a complete assay office not only for his own mines, but also for commercial operations. R. D. MacAfee is in charge and already "apple-knockers", "sizzor_bills" and "prune pickers"—the soft term of appraisal used by the old timers for new prospectors—are bringing in ore samples.

0

2-YR ITINERARY MAPPED AS GROUP STUDY FISH

An itinerary covering two years was mapped at a meeting of the legislative committee investigating the fish and game conservation laws, which met in San Francisco Saturday, August 15th to organize.

Assemblyman J. L. Seawell of Roseville was named chairman of the group. Other members are Hubert Scudder of Sebastopol and Henry McGuinness of Dunsmuir.

While at San Francisco the committee made a preliminary examination of fishing conditions in the bay district. This study will be continued at another meeting to be held September 5th.

After completing the study of fishing conditions at the bay the committee will visit the Klamath and Eel rivers, looking over salmon and steelhead fishing conditions.

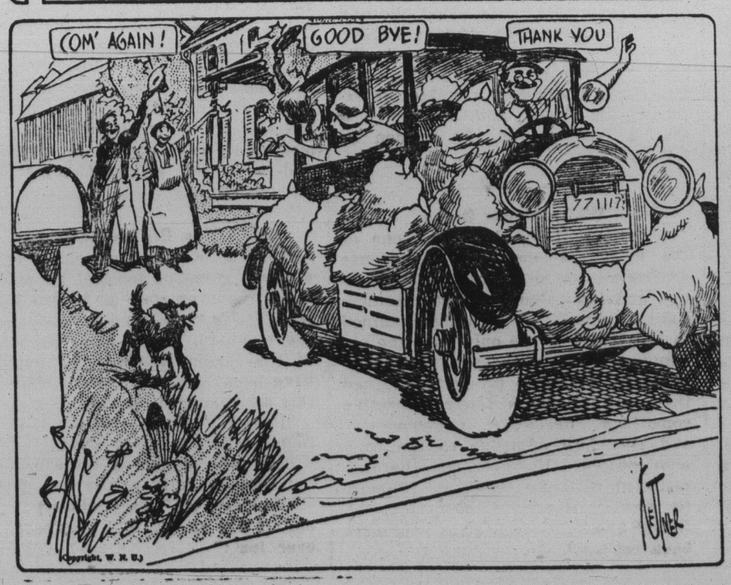
On September 19 the committee will go to Los Angeles harbor and at Santa Catalina Island. Returning to Monterey, a study will be made of the sardine fisheries. At San edro and Santa Cruz the committee will have the use of the patrol yacht of the state fish and game commission.

Next February the committee plans to take the patrol yacht for a study of tuna and baracuda fishing in Mexican waters. The aim of this trip is to reach an agreement with the Mexican government as to uniform fishing laws.

In March or April the committee plans a trip through Oregon and Washington. At Seattle the members will take a steamer for Alaska to make a study of duck and salmon conditions along the coast with the view of working out suggestions for American and Canadian regulations as to duck hunting and salmon fishing in these waters.

The committee at its meeting last week discussed the game fish problem of the Truckee River and secured a promise from the state fish and game commission that water will be pumped from Lake Tahoe during the dry season to provide enough water in the Truckee to preserve fish life.

The Harvest



VISITORS REPORT NEVADA CO. MINING ADVERTISED

Mr. H. Bert Walton and wife were Nevada City visitors last Friday. They are on a vacation and he is looking at mining properties in this district.

Mr. Walton was born near Weimar where his father held large placer holdings, that are still in the family possession.

He attended high school in Auburn one year, then going to Sacramento where he graduated three years later. From there he went East and attended Harvard University. Mr. Walton was in the Randsburg section 16 years and states he was employed as an engineer for the Yellow Aster mine. He stated the property was sold recently to an English Syndicate.

This is Mr. Walton's first vacation in 21 years and he is planning much happiness visiting relatives, many of whom live in Marysville, and visiting places of interest.

He stated that all you heard from the Atlantic to the Pacific ocean and from Canada to the Gulf of Mexico was, "Go to Nevada County".

0

LOCAL MAN HAS PLANS FOR SUNDAY DINNER

The feeding of 150 elephants at the Sells Floto Circus at Auburn will occupy the time of the Viking Restaurant who go there by special invitation on Sunday. While there they will attend the circus. The Viking Restaurant will be closed on that day.

The chicken dinner that is served Sunday will be served Saturday. All customers are invited to Auburn on August 23rd.

These Vikings have been in almost every state in the Union and in foreign countries. It is with pleasure we announce that they have decided they like Nevada City the best of any place they have seen.

0

MURCHIE MINE SENDS FINE SPECIMEN ORE

A large piece of quartz about 18 inches in depth by two feet in length with some other choice specimens were taken from the Murchie Mine to be used in the mineral display at the State Fair. The large piece of ore weighed about 250 pounds and ore values per ton are $750, it is said. The quartz specimens are highly mineralized.

They are on display at the Chamber of Commerce rooms, where other exhibits are being left to be used in the coming fair display.

0

GOLDEN CENTER MINE SOON TO OPERATE

After clearing 110 feet of rotted timbering and caved earth and rock, the shaft collar of the Golden Center Mine has been fully rebuilt and is ready for use. The 110 foot unit enters solid rock.

The work of unwatering, wnich will start at the 500 foot level, is not expected to delay actual mining operations more than a few days and the mine, located close to the business center of the town, has every prospect of being in full operation by early Winter.

0

PROMINENT MEN NAMED ON MINES COMMITTEE

Arthur Foote has been appointed the Nevada County representative on the state mining association's executive committee to study mining question coming before the association and to submit findings to the mining chapters of the State.

Alex M. Wilson of Butte County , James D. Stewart of Placer County, Charles L. Gilmore of Sacramento County, and E. Gormley of Amador County are the other members.

Errol MacBoyle is ex_officio chairman of the committee.

Directorate of the Mining Association proved so unwieldly it was decided to elect an executive committee to carry on the work more expediently.

ASSESSOR DIES MONDAY MORN

A pall of sadness enveloped this community Monday morning when it was learnel that County Assessor Henry Schroeder had died suddenly at his mining property at English Mountain at 2 o'clock this morning. Heart trouble caused his demise. He was on a camping trip with a party of friends to the property at English Mountain. He always looked forward to this trip with pleasant anticipation. He complained that the altitude bothered him at first, but he soon became adjusted to it, and thoroughly enjoyed the outing.

Considerable interest has been taken in the past few months in the property, a large copper deposit, and the party with Mr. Schroeder, was interested in examining the property

Henry C. Schroeder was born in Spenceville, December 22, 1865. The family moved to Rough and Ready when he was a lad of nine years, his father having purchased the Rough and Ready Hotel from te late Judge Walling.

He attended school in Rough and Ready and after graduating attended Pacific Business College graduating in 1887. He was clerk for a time for J. MCDonough & Co., coal dealers in San Francisco, but later returned and acted as clerk in his father's hotel.

In 1897 he was married to Miss Jennie Adair and has enjoyed a happy wedded life with this mate although no children came to bless the union.

All his life he has been indentified with mining. He gained a wide reputation as a pocket hunter and was successful in locating a number of rich pockets in the Rough and Ready District and due to his success the district enjoyed considerable mining activity at one time.

At the time of his death he had interest in the Osceola, Black Bear, and Randolph Flat claims, but English Mountain was his favorite property.

Fraternally he was a member of Nevada Lodge of Elks, the various branches of Masonry and was a charter member of Hyrdaulic Parlor Native Sons of the Golden West.

Lavish, kindly, in his numerous charities of which few knew of its extent, as he was reticent in the matter.

Besides his widow he leaves three sisters Mesdames Sophie Abbot, Lena Brown and Lily Martel of Oakland.

Two years ago Mr. Schroeder underwent a gall bladder operation from which he fully recovered. A few months ago he was hurt when he stepped out of his automobile on a steep street to speak to a friend. It backed down striking him in such a way as to break several ribs. He was taken to the Nevada City Sanitarium for about a week.

In 1895 he was appointed deputy assessor under the late W. .H. Martin. Mr. Martin only served one term and the following election in 1898 Henry Schroeder ran for assessor and has served the county in that office ever since. For many years he has been unopposed. He was loved throughout the county for his fairness, justice and charity. He made the tax as light as possible on the poor making it up on those financially able to stand the burden.

Funeral services were held Wednesday afternoon from the home on Prospect Hill, with interment in Pine Grove cemetery. Holmes Funeral Home had charge of the arrangements. Rev. H. H. Buckner conducted the services.

Pall bearers were, George L. Jones, George R. Carter, L. S. Wincapaw, J. F. Colley, Ray O'Connor, and Otto Schiffner.

Taking office on the same day, January 1895, Henry Schroeder in the Assessors office and Judge Mulroy as Justice of the Peace of Grass Valley the two men who served these offices faithfully for 32 consecutive years passed away within half an hour of each other.

0

Mr. and Mrs. Will Jeffrey and two sons, accompanied by Mr. and Mrs. Charles Guenther, spent Sunday motoring to Lakes Donner and Tahoe. They report a most delightful trip.

FINE COMMUNICATION FROM RANDSBURG MINES

Randsburg, Calif., August 20—In the coming in of Homer L. Gibson, Toronto mining man, Roy A. Hardy, noted mining engineer of Reno, Nevada, and L. C. Main, Los Angeles capitalist, into the California Rand mining district, mining will have a brand new phase. In takng over the Kelly mine a one time world's record silver producer, their first work was starting a general clean-up of all equipment; the 400 ton flotation mill, never having had a general clean-up, the job will require some weeks to finish. The flotation units will be divided, two hundred units for tht leasers and the same for company ores. A 200 ton cyanide plant has been purchased from the United Eastern, Oatman, Arizona, and is now being set up alongside of the big mill. The cmopany is entering the field with notice that they are in the field for the purchase of ores, tailings, dumps, fills and gobs ,not only in the Rand district, but for all camps and districts of this section of the Mohave desert

Shaft ....o. 1, has been leased to one set of thre miners. No. 6 shaft has been leased to two sets of leasers and the No. 2 or main shaft, has been leased to 25 leasers assigned to blocks of ground on the various levels. One of the big things for the near future is the dewatering of No. 2 shaft, between the 12th and 19th levels. The deeper they find the rich silver, the more the content of gold follows, giving one te idea that the mine will eventually turn to gold values.

The Kelly mine, was fully equipped, modern machinery, good substantial buildings, mine, mill, office, blacksmith shop, change rooms, warehouhe, assay office, etc., not close together, well spread out, roomy and large, juht the plant for the present owners. Oh yes! guests houhe, two of them, a pleasure and comfort for the tired arrivals over a 40 miles ride across the desert.

Any day the good news of the W. P. Hammon Company, coming in with their engineers to plan out the test run of 1000 tons of material taken from the Yellow Aster company's famous glory hole, is looked for. This test is to be run through 10 stamps of the company's 50 stamps and will take some 7 weeks. With the returns complying with the assays taken and made, say, $1.50 to the ton, the deal is on forthwith.

This deal would mean tne taking up of a number of options on desirable groups adjacent to the Yellow Aster workings, and there is no doubt whatsoever but the option holders would soon start activity on the west portion of the goldfields of the Randsburg, a territory that has but little chance ever since the gold was discovered 38 years ago.

Two shifts are now going good on the 200 of the Bender mine, with the intention of cutting a cross vein that shows well from the surface. In this drift they have a vein when first picked up showed 20 inches in width at 90 feet it shows 6 feet, it carries all of the looks and signs of the good milling ore from the different workings but it will not pan enough for any purpose.

The Bender mine, the property of the Operator Consolidated Mines, a San Francisco listed mining stock, is the first new gold discovery in many years. It has paid for itself and all of the equipment. Owning their own stamp mill, makes profits better for the company.

Another find in the Bender would cause a lot of prospectors to flock in that territory for a possible lease

Leasers on the King Solomon, having their use of the company mill, are making good money on their output.

Sunshine leasers, the W. H. Williams claim and the leasers on the Minnehaha mine, all have runs of ore that brings them $20 to the ton.

The Windy mine and mill has been operating and milling on product from the 100 foot level.

Gold Coin leasers are finishing the construction of a brand new Denver mill, located at Johannesburg.

Many options are hanging fire. With the new corporation laws in effect the restive promoter, has another think coming.

COUNTY IS SHOCKED BY MANY SUDDEN DEATHS

A record unbroken for a long number of years and probably not in the history of Nevada County, occurred over Sunday and Monday when death took five of Nevada County's worthy and highly respected citizens.

Charles Bertonchini of the Greenhorn District, was the first, who was found dead in bed; Mr. Schroeder was second at his English Mountain Camp, where he was with friends; Judge Mulroy of Grass Valley was third; Jerome Geronimi was fourth, he passing away just before going to work Monday morning, with John Bach of Smartsville making the fifth. Mr. Bach had completed a day's work and came to the house to rest, soon expiring.

All were deaths from heart disease and all passed away before help arrived.

Each in his own life lived so as to make the world a better place to live in, and will be missed by their many relatives and friends.

The five sudden deaths have been the subject of much discussion, it being probably one of the most remarkable coincidences of many long years.

BUTTE MINES TO BE ADVERTISED

Butte County will carry a page advertisement in the new California Mining Journal next month, advertising Butte County's mining industry, and the magazine will be devoted largely to exploiting mines of Butte and Yuba Counties. The board of supervisors voted to take the advertisement at a cost of $50.

"This is the first time this board has ever been asked to do anything for the mining industry of Butte County", Rohr said.

S. L. Ledford, Alex Wilson and Charles Belding, county clerk, spoke favoring the action.

Observe All Saints Day With Light and Music

In case any are further interested in the manner in which All Saints day is observed in Philippine cemeteries, we append the following additional characteristics of the annual celebration: The poor burn candles on the graves, while those who are financially able install electric lights. At night the cemeteries are seas of lights. Pictures of the departed persons are set up on the graves, and roving bands of musicians wend through the precincts and play pieces for them on the payment of 50 centavos (50 cents) by sorrowful relatives. The mausoleums of the rich are opened to the public, and long lines of persons course through them throughout the day and night.

The custom of playing lively rather than slow music in the cemeteries here is obscure, but it occurred during Spanish times. One story is that it originated during an appalling epidemic. People were dying by hundreds. The Spanish authorities, fearing the bad psychological effect of dirges, prohibited the playing of them. —North China Standard, Peiping.

Mental Test

An agent recently called on a north side mother trying to interest her in a set of books. Junior was peering through the pages so the caller showed him some pictures under "Mental Test." One picture was that of a wagon without the "handle." After asking Junior several questions the woman enlightened him by saying that the wagon didn't have a handle. Turning to a picture of a pig without a tail the youngster studied it intently for a few moments and said, "Why, the pig doesn't have a handle, either." —Indianapolis News.

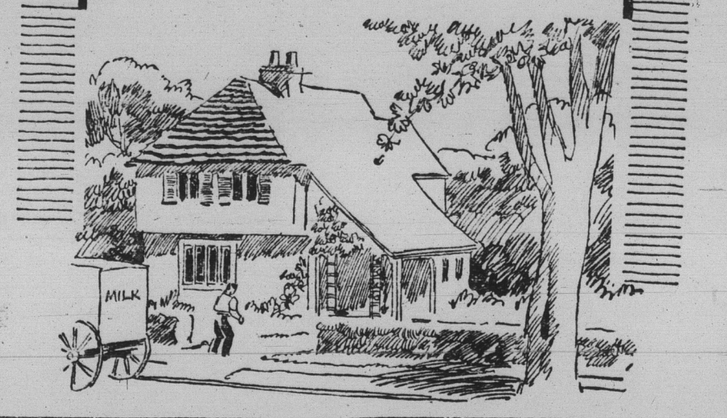
You and I

By CHARLES S. KINNISON

SUNLIGHT

The morning sun smiles down upon
Our little home, at peep of dawn,
In radiance fair and bright,
And paints the house with golden cheer,
As dusky shadows disappear
Before its beaming light!

And oh, I hope while I am there,
I, too, may do my humble share
To make our home a place
Where song and laughter sweetly blend!
While I am there I hope to lend
Some little touch of grace.



Mighty Title Borne by Many Unworthy Rulers

Caesar was a title assumed by Octavianus, adopted son of the great dictator, Julius Caesar, and was by him handed down to his adopted son, Tiberius. It continued to be used by Caligula, Claudius and Nero as members, either by adoption or female descent of Caesar's family; but though the family became extinct with Nero, succeeding emperors still retained the name as part of their title, and it was the practice to prefix it to their own names, as Imperator Caesar, Domitianus Augustus. When Hadrian adopt- Aelius Verus, he allowed the latter to take the title of Caesar, and from this time, though the title Augustus continued to be confined to the reigning emperor, that of Caesar was also granted the second person in the state and the heir presumptive to the throne. After the death of Nero, his name was adopted as a kingly title by succeeding Roman emperors. This practice continued, and the same title was used in modern times, as in the case of kaiser and czar.

Source of Fabled River Styx Merely Waterfall

Solos, a village on the slopes of Mount Helmos, not far from Akrata in the division of southern Greece known as Achae, is near the supposed site of the fabled River Styx. In Greek mythology the Styx is a mighty river, the tenth part of the water of Oceanus, which flows in the lower world. It is described by Homer and Hesiod as the terrible black water falling from a high precipice and dashing itself upon a lofty rock, through which it passed and then fell into the Crathis.

The fabled waters of the Styx have been identified by students of antiquity as the two slender cascades falling over a high perpendicular precipice of Mount Helmos, near Solos. After winding among a labyrinth of rocks the water unites to form a mountain torrent which eventually joins the River Akrata (Crathis). Superstitious feelings of dread still attach to the water, which is considered of a peculiarly noxious character.

Pliny Stirred to Wrath

Those who have watched some volunteer fire companies in action will be amused by the fact that Pliny got all wrought up about this matter of fire-fighting back in 106 A. D., writes Joseph T. Armstrong in the New Orleans Item-Tribune. In a letter to the Roman emperor Trajan, Pliny described a fire at Nicomedia, which consumed several homes, the town house and the temple of Isis.

Pliny indignantly blamed this damage in part to "the indolence of the people, who manifestly stood idle and motionless spectators of this terrible calamity." He said there were in the town "neither engineers, buckets nor any single instrument suitable for extinguishing fires," and recommended that a company of 150 firemen be formed.

White House Baths

"Charming Dolly Madison," one of the most gracious of White House mistresses, set aside rooms for bathing, and instituted the first Presidential bathtubs. These bathtubs remained in the White House only until the entrance of Andrew Jackson, first plebeian President, who promptly chucked them out of doors for representing something decidedly undemocratic, and therefore offensive to the common people. However, the bathtub returned with the fastidious Fillmore to remain evermore enshrined, although the Fillmore tub has long since been replaced.

World Slow to Acclaim Possessors of Genius

If some of those long-dead authors whose works are now universally honored could come back today they would conclude either that the world's sense of values have been completely upset or that they had been disgracefully cheated of their dues.

The Golden Book Magazine discloses the early history of some of the famous manuscripts which recently have sold for fabulous sums to wealthy collectors, and the result is a starting contrast in literary values.

For example, the manscript of Poe's poem, "The Raven," was sold for $200,000. But the poet himself sold it for $10 to the American Whig Review, after other publishers had refused it. In fact, the poem was held in so little regard that more than a year passed between its writing and publication. But its appearance made the author the outstanding poet of the day.

When Edward Fitzgerald translated "The Rubaiyat" in the 1850s he could not find a publisher, although one magazine held the poem for two years before rejecting it. Fitzgerald then published it himself. But instead of the $1.25 a copy which he had hoped to get, the price dropped to two cents before it began to sell. A first edition was sold in 1929 for $8,000.

Long Controversy Over Death of Mind-Reader

Washington Irving Bishop died in a coma following a cataleptic trance soon after giving a strenuous demonstration of mind-reading at the Lambs' club, New York, May 13, 1889. An autopsy was performed by several doctors less than four hours after the death had been pronounced and without the consent of relatives. His relatives stated that on his person he carried papers at all times prohibiting an autopsy or the use of electricity to revive him should he be thrown into a trance. Electricity was used. A second autopsy was ordered and later an inquest was held, due to the statement of his mother and others that the first autopsy had been performed while he was still alive. The jury's verdict, however, was that the death was due to coma and had occurred before the autopsy. Later the grand jury indicted the doctors for violation of the sanitary code. A book was published by his mother, giving his biography, and also her view of the case.

Ancient Roman Racketeer

Dr. William Stearns Davis, the late historian, dug up from the records of ancient Rome a man whose ideas were dozens of centuries ahead of his time. He was Crassus, a wealthy real estate operator. His racket was this:

He drilled a score or so of his slaves as fire fighters. Then, picking out a handsome villa, he would have one of his mob set fire to it. As the flames mounted Crassus would appear and make a small offer for what looked like a total loss. At the owner's word "Sold," Crassus' visiting firemen would rush out of the shrubbery and save the property.—New York Herald Tribune.

Too Big to Lose

Billy Brown was dreaming of the glorious game of football he was going to have as soon as he got out of school. He wasn't a bit interested in the elephant, which was the subject of the lesson to which he ought to have been listening. The teacher saw this and pounced on him.

"Brown, where are elephants found?" he demanded sternly.

Billy was staggered for a moment, but rose gallantly to the occasion.

"P-please, sir," he stammered, "elephants are so big that they're hardly ever lost!"

SEEKING FOR ANCIENT CHANNELS IN CALAVERAS

San Andreas, Calif. August 21—Test runs made on an aggregate of 200 tons of placer gold gravel from the new deposit recently declined in the property of the Calaveras Central Gold Mining Company, near Angels Camp, show average values of $7 a ton or $10.50 a cubic yard, according to President Harry Sears. Due to the completeness of the labor-saving machinery installed by the company both underground and on the surface of the 500-acre estate during many months of preliminary work with a view to reducing operating costs to the lowest possible minimum, this grade of gravel yelds an exceptionally large margin of profit, it is asserted.

The discovery, one of the most notable placer finds in Calaveras County in recent years, was made on bedrock in the extension of the main haulage crosscut from the bottom of the 350-foot three compartment vertical shaft at a point 600 feet distant northeast therefrom. Thus far the working has penetrated about 25 feet the deep blue gravel deposit, a section of the famous and prolific Central Hill ancient river channel, on which is located two miles distant northeasterly the Vallecito Western and which is traceable for many miles through the county.

The crosscut that revealed the deposit in the Calaveras Central estate is being advanced from the southwestern to the northeastern rim of the channel, which varies in width from 300 to 600 feet, it is stated. At present the pay course, as exposed by the face of the working, shows a depth of nine feet above bedrock. In due time, raises will be run to determine the full depth of the deposit. The gold nuggets recovered from the pay dirt thus far washed, for the most part, are coarse and about the size of flax seed. The washing machinery installed by the company has a capacity of 300 tons of gravel in 24 hours.

Thomas Johnson of Los Angeles and associates have purchased from Fred Zurcher of Murphys a lease and bond on a 310-acre placer gravel tract two miles southeast of Vallecito, owned by John and Antonio Solari. Under the supervision of Antonio Sturlla, a force of miners has been put to work cleaning out an old 300-foot tunnel, which, it is stated, will be extended a like additional distance with a view to intersecting the Table Mountain ancient river channel.

FRENCH CORRAL NEWS

FRENCH CORRAL, Aug. 17, (Special to The Nugget)— Autumn begins in August in this section this year. Already the leaves are turning and falling. The long continued hot spell, and stortage of water has brought about this condition.

W. E. Moulton has been busy trying to relieve the situation of water shortage by installing a pump in the Bedrock pond. In this he has been handicapped in many ways and as yet has not obtained satisfactory results.

J. R. Davis, the "Maytag man" had business here Tuesday.

Mrs. Jas. Fogarty and son, Earle of De Sabla and her sister, Mrs. Lena McCarthy, who has been visiting with their sister, Mrs. W E. Moulton of this place, returning to De Sabla Tuesday afternoon. Mrs. Jas. Fogarty and sister and son, are natives of this place. They lived here up to '07 when Mr. Fogarty entered the employ of the P. G. & E., by taking charge of some of their property at De Sabla.

Wm. Gish who has been spending some time in Sacramento, returned to this place Tuesday. He is accompanied by his brother Jack Gish.

Clyde Bishop, son of N.. B. Bishop of this place, was a visitor during the week.

Mrs. Grace Olives and her aunt, Mrs. Belle Taylor, went to Marysville Wednesday. Mrs. Olives returned Saturday accompanied by her brother, Edward Dillon.

Mr. Vivian, who has been working at Garden Valley, visited his family at this place during the week.

Miss Theresa O'Connor returned to her home in Birchville Wednesday after spending her vacation with relatives in San Francisco and Sacramento.

Mrs. K. Sullivan had business in Grass Valley and Nevada City Thursday.

L. Haslett was a visitor in Nevada City Thursday.

Columbia Parlor, No. 70 N. D. G W. held a meeting of their lodge Friday afternoon

J. H. Haslett and son, Lloyd, made a trip to Hood Saturday to visit Mr. Haslett's daughter, Mrs. Glenn Orr. They returned to French Corral Sunday evening.

Mr a.nd Mrs. Ira Slack and son, Sam, and griend, Forrest Huntly, visited with friends in French Corral Saturday. They will return to their hom in Hollywood Monday after spending a vacation of several weeks on the San Juan Ridge.

Lloyd Dudley, who is employed at the Bank of America at Nevada City. is now taking his vacation. He and his wife are spending part of this time with her parents at French Corral.

Arno Browning and son, Clyde, who are employed at Forrest Hill spent the week end at their home in French Corral. They were accompanied by Miss V. Day.

Mr. and Mrs. Benton Wilcoxson and son, Benny, and cousin, Mrs. Fay Putnam and daughter of Dixon visited Mrs. Wilcoxson's relatives in French Corral Sunday.

Mr. and Mrs. P. H Flynn of Nevada City were Sunday visitirs in French Corral

F. S. Woods and F. Clark of Sweetland were Sunday visitors.

DESCRIPTION OF A NIGHT ON A FARM

By Joe M. Swazey

The shadows are falling
The night birds are calling
The moon rises o'er the hill;
The stars are shining
Lovers are pining
Everything is quiet and still.

Now, dishes are clattering
Tiny feet are pattering
Over the kitchen floor;
Old Mrs. Tupper
Is cooking the supper
Evening has come once more.

The cattle are bawling
The baby is squalling
Now the dogs are tuning in too;
Talk about quiet
Why man! it's a riot
Does a poor farmer ever get thru?

Now, the cattle quit bawling
And the baby's quit squalling
I heard pa, whisper, "Thank God."
And William and Ned
Have just gone to bed,
And will be in the land of Nod.

The scene is so adoring
Hear the folks snoring
The evening is plasant tho warm;
Oh. dear what a pity
To live in the City
When I'd much rather be on the Farm.

OUTPUT OF PORTLAND CEMENT DURING YEAR 1930

Statistics relating to the Portland cement industry in 1930 compiled by the United States Bureau of Mines, Department of Commerce, from the final returns of the producers for the year confirm the estimates published by the Bureau of Mines early in January.

Production of Portland cement in 1930,—161,197,228 barrels— showed a decrease of 6 per cent from 1929, and of nearly 9 per cent from 1928, the highest year of production.

Shipments of Portland cement from mills in 1930 amounted to 159,059,334 barrels, valued at $228,719,756, a decrease oof 6 per cent in quantity and of more than 9 per cent in gross value. The average factory price per barrel in bulk in 1930 was $1.44, a decrease of 4 cent per barrel as compared with 1929.

Producers' stocks on hand at the mills increased, reaching a total of 25,838,427 barrels on December 31, 1930. They were 9 per cent higher than at the end of 1929, and represented the largest stocks on hand at the end of any year since the beginning of the official statistical record of this item.

The commercial capacity for production of finished Portland cement of the 163 plants active at the end of 1930, and of the three plants idle in 1930 but producing within the three previous years, according to manufactureds' reports supplemented by a few estimates was 270,044,000 barrels. This total includes increased capacity due to extensions and improvements at old plants. There were no new plants reported as entering production in 1930. The capacity of one plant reported out of business in 1930 and idle in that year and in the two previous years, has been excluded from the figures for 1930. The total production for 1930 was 59.7 per cent of the indicated capacity at the close of the year; the cocresponding figure for 1929 is 65.9 per cent.

A summary of the monthly estimates of output of Portland cement in 1930, compiled from monthly reports of the producers, was published early in January, 1931, by the Bureau of Mines. These estimates, which indicated a production of 160,905,000 barrels and shipments of about 158,744,000 barrels, were within 0.2 per cent each of the figures for 1930 here presented.

DARNALL MINE COMPANY HAS RESUMED OPERATION

Jamestown, Calif., August 21—The Darnall Mining Company, controlled by T. M. Darnall of San Jose and associates, has resumed operations at the Texas Hill mine, on the north fork of the Merced River, 15 miles southeast of Coulterville. Under the supervision of Fred H. Partington, a crew of six miners is advancing a drift tunnel and preparations are being made for the resumption of milling operations it is stated.

Adolph Jacobs of Sonora, operating under a lease and bond recently obtained, has inaugurated operations on the Barrett property, ten miles east of Graveland. He has a crew of miners trenching the surface preliminary to the sinking of a shaft.

LOCATION NOTICES—Quartz and placer locatron notices for sale at The Nugget office at 5c each.

MCLAUGHLIN AND ELSBREE WORK MINE PROPERTIES

Sonora, Calif August 21 — By cleaning out and extending a short distance an old tunnel on his Lucky Strike property, on the south fork of the Stanislaus River, 11 miles northeast of Columbia, William McLaughlin has opened up three gold showings which exhaustive metallurgical tests indicate should prove the forerunner of the disclosure of improtant orebodies. One vein, measuring two feet in width and coursing northeasterly and southwesterly, gives average asasys of $8.47 a ton, while a second, with a like course and paralelling the first with only a foot and a half of country rock between them, yields $10.75 a ton, it is stated. A third vein, having as easterly and westerly trend and intersecting the other two ledges, measures five feet two inches between walls and returns $9.50 a ton for its entrie width.

Development work recently resumed on the Wildcat mine, three miles north of Soulsbyville, idle 15 years, is yielding excellent results, it is learned. A force of miners, employed by A. E. Elsbree of Sonora, the owner, has reconditioned a 100 foot shaft and is now extending a drift from the bottom on four inches to a foot of oore yielding average assays of $100. a ton in gold. On the adjoining Joe Hooker property, also owned by Mr. Elebree more than a foot of ore assaying $30 a ton in gold has been recovered.

Sinking operations recently inaugurated by James Pierce on his property on Mormon Creek four miles west of Sonora, have been temporarily slowed up by the tapping of a water course in the shaft, now down 30 feet and exposing ore which pans well, it is stated. The miners employed are at present installing a pupm to handle the flow and sinking will soon be resumed.

On the line ahead of time
...thanks to INSTANT hot water...

It costs less per gallon.

IN THE AVERAGE HOME, hot water is wanted 150 times a day! The Automatic Gas Water Heater reduces the matter of hot water to one simple thing—turning on the faucet.

Think of the minutes you save in doing each household task when you don't have to wait for water to heat. Then too an abundant supply of hot water cleans faster. The minutes saved amount to hours each week. You can use this time for motoring, shopping or other pleasures.

Automatic Gas Water Heater requires no watching
Once the Automatic Gas Water Heater is installed, it doesn't matter what time of the day or night you want hot water—it is ready instantly, a basinful or a tubful. The water in the tank stays hot because the boiler is insulated. No gas is wasted keeping the water hot.

An Automatic Gas Water Heater

The cost of this instant hot water service is the cheapest of any method of heating water in the home.

You can have an Automatic Gas Water Heater installed in your home for a few dollars down, balance in monthly payments. For full details telephone or call at our office.

Local dealers also sell Automatic Gas Water Heaters

NOTICE OF CONTEST
C—2258
DEPARTMENT OF THE INTERIOR
UNITED STATES LAND OFFICE
Sacramento, California, July 30, 1931

To Milton H. Johnson of....., Contestee:

You are hereby notified that Arthur C. Harrington who gives Oregon House, California, as his post-office address, did on July 30, 1931, file in this office his duly corroberated application to contest and secure the cancellation of your homestead Entry Serial No. 025633 made July 8, 1930, for SW ¼ and E½ Section 12, Township 18N., Range 6E., M. D. Meridian, and as grounds for his contest he alleges that entryman never established residence upon the land and has abandoned it for more than the six months last past, and has wholly abandoned it.

You are, therefore, further notified that the said allegations will be taken as confessed and your said entry will be canceled without further right to be heard either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice as shown below, your answer ,under oath specifically responding to these allegations of contest, together with due proof that you have served a copy of your answer on the said contestant either in person or by registered mail.

You should state in your answer the name of the post office to which you desire future notices to be sent to you.

NOTICE OF SHERIFF'S SALE OF REAL ESTATE, UNDER EXECUTION

IN THE.. SUPERIOR.. COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF NEVADA.

JAMES BRADY, Plaintiff
vs.
M. IVAN DOW AND E. L. DOW, Jr., Defendants.

By virtu of an Execution issued out of the Superior Court of the State of California, in and for the County of Nevada, wherein James Brady is Plaintiff and M. Ivan Dow and E. L. Dow Jr., are Defendants. Upon a Judgment rendered on the 6th day of July, 1931, for the sum of Four Hundred Thirty-eight ($438.00), with interest thereon at the rate of 7 per cent per annum, till paid from the date of said Judgment, together with Twelve ($12.00) costs and disbursements at the date of said Judgment, and Clerks accruing costs of One Dollar ($1.00).

I have this day levied upon all right, title, estate and interest of M. Ivan Dow and E. L. Dow Jr., defendants, as aforesaid, in and to the following described real property to wit;

All those certain consolidated quartz and placer mining claims, being portions of Section Seventeen (17) and Twenty (20) Township Sixteen (16) North, Range (9) East, M. D. M., bounded and particularly described as follows; Commencing at the section corner common to Sections 16, 17, 20 and 21 of said Township, thence running South 88½° West following section line between said Sections 17 and 20, 16.81 chains thence North 55½° West 28.80 chains to post M. H. R. 12; thence South 64½° West 8.20 chains to post M. H. R. 14; thence North 74° West 4.86 chains to post M.H. R. 15; thence North 56½° West 4.49 chains to post M. H. R. 16; thence North 48° West 6.00 chains to post M. H. R. 17; thence South 49° 4.90 chains to post M. H. R. 1; thence south 11½° East 3 chains to postM. H. R. 2; thence South 13° West 8.16 chains to Post M. H. R. 3; thence South 9¾° W. 4.20 chains more or less to point 25 feet North of the croppings of Nolan's Nevada Ledge; thence North 70¾° East at 9.60 chains Post M. H. R. and B. C. 3, 12.02 chains to point on East side line of Nevada Q. M., South 23° East 0.73 chains to East Lode Post of Nevada Quartz M; thence South 15° 38' East 2.24 chain to North side line of Big Blue Q. M., thence South 68° West 5.82 chains to N. W. corner of Big Blue Q. M.; thence South 22° East 0.76 chains to S. W. Corner of Big Blue Q. M. thence North 68° East 5.76 chains to East end line of Nevada Q. M., thence South 15° 38' E. 1.86 chains to Section line between Sections 17 and 20; thence North 88½° 5.62 chains to the NW. Corner of the Nute Placer Mine; thence South 2° West 12.75 chains, thence South 45° 27' East 10.04 chains to post M. H. R. 6; thence North 88½° E 40.86 chains more or less to post M. H. R. 9; the line between sections twenty and twenty-one and thence North 0° 45' W. 20.45 chains more or less to the place of beginning. Also all those certain Placer and Quartz Mining Claims commonly known as the Sharp Consolidated Mining Claims and consisting of both Quartz and Gravel and known as the Greenman, Butterfly, Ben Harrison, Glencoe, Hickson, Enterprise, Little Kellog, and Red Rose Claims, and for a more particular description of the above named cleaims reference is hereby made to the Nevada County Recards in Book and pages as follows:

Greenman, Book 26, page 195, Kellog, Book 26, page 196, Rose Claims, Book 126, page 195, Enterprise, Book 24, page 68, Hickson, Book 24, page 69; and Ben Harrison, Book 19, page 161; meaning and intending to convey all the right, title and interest that the said Sharp, his heirs and assigns have or may have to the above described property, together with all personal property and improvement located thereon.

For further description of the above mentioned placer and quartz consolidated claims see Book Deeds 131, page 309, Nevada County Records, and including all water rights, ditches, machinery tools, timbers set upon or connected with or appurtenant to said premises or any part thereof; it is intended hereby to include all patented or unpatented quartz and Placer Mining Claims owned or claimed by the Grantor in Nevada Township, Nevada County, California.

Including all buildings and improvements tereon, or that may be erected thereon; together with all and singular the tenements, hereditaments and appurtenances, water and water rights, pipes, flumes and ditches thereunto belonging or in anywise appertaining and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

Together with all and singular the tenements, hereditaments and appurtenances thereunto belonging, or in anywise appertaining, and the reversion and reversions ,remainder and remainders, rents, issues and profits thereof.

Public Notice is hereby given that I will on Friday, the 31 day of July, 1931, at 10 o'clock A. M. of said day in front of the Courthouse door in Nevada City, County of Nevada, State of California, sell at Public Auction for cash, lawful money of the United States, all the right, title claim and interest of the above named defendants, of, in and to the above described property or so much thereof as may be necessary to satisfy said Judgment and costs, etc., to the highest and best bidder for cash lawful money of the United States.

Dated: July 10th, 1931.
GEORGE R. CARTER, Sheriff of Nevada County.
E. H. Armstrong, Attorney for Plaintiff.

STATE FAIR TO BE LARGER AND BETTER

Backed by seventy-six years of remarkable growth and brilliant success, the 1931 California State Fair, whose gates will be opened with a golden key by Governor James Rolph at 10 o'clock Saturday morning, September 5th, and will be closed September 12th, will colorfully climax California's famed Fiesta Year. This year's Fair, held in the handsome buildings and spacious grounds at Sacramento, California's beautiful capital city, promises to eclipse all previous expositions.

The agricultural, horticultural, floricultural, livestock, scenic, industrial and mineral wealth of the Golden State will be paraded in attractive exhibits before hundreds of thousands of visitors. Charles W. Paine, secretary-manager of the Fair, announces that the 1931 premiums, prizes and purses will total $125,000, the largest amount ever offered at a state fair.

$200,000 Structures Dedicated

The opening day will mark the dedication of two new brick Fair buildings, the $125,000 swine and sheep structure just east of the livestock pavilion, and $75,000 poultry building, northwest of the main exhibit hall. It also will usher in the boys' and girls' model airplane contest. Newspaper editors and publishers will be the luncheon guests of Governor Rolph and State Fair officials the first day, while the Sacramento Ad Club will entertain visiting advertising men at dinner.

Horeses too Feature Fair

King horse—runner, pacer, trotter, and fancy stepper— will reign supreme at the 1931 Fair. With $20,000 hung up in prizes, the night Horse Show will be the greatest ever held in the west. The world's finest horses will be shown in the following clases:

Roadsters, heavy harness, three-gaited saddle, five-gaited saddle, hunters and jumpers, stock, and Shetland and polo ponies. A fifth place has been added in each class. Magnificent specimens of horseflesh will compete in seven special $1,000 stakes.

Some of the fastest runners and most perfect pacers have been entered for the State Fair racing meet for which purss total $32,900. New track records are expected. In training recently Harry D., sensational pacer of the S. H. Cowell stables, paced the mile in the fast time of 2:06 minutes.

Daily polo matches will be staged in the race track enclosure between fast teams of crack players under the supervision of Will Tevis. Teams from Reno, Santa Barbara, San Mateo and Sacramento will probably enter.

Many County Exhibits

Fruits, grains, industries, minerals, scenic attractions and vegetables will feature the county exhibits, for which decorative booths have been erected. Despite the depression, between 30 and 40 counties will be entered. Cash awards total $10,000 and $1,200 worth of cups are offered counties. Different flowers will be displayed each day, and slogans are being devised for the booths.

For prizes amounting to $1000 drill teams representing California lodges, patriotic societies, clubs and auxliaries will compete Sunday, September 6th, in front of the grandstand, Monday, September 7th, Governor Rolphwill pitch horseshoes against President A. B. Miller of the State Fair Board to officially open the "barnyard golf" tournament. Champions from 55 clubs will compete for $1000 in prizes.

Livestock Awards $31,304

Cash premiums for cattel, swine and sheep this year total $31,304, divided as follows: Cattle, $22,735; swine, $4,526; sheep, $4,043. Early entries indicate the value of animals in the annual stock parade Governor's Day, September 10th, will far exceed one million dollars.

Under the supervision of Julian A. McPhee and Howard F. Chappell of the state department of education, 500 high school agricultural students will be encamped this year at Camp Lilliard, a semi-military camp school held annually in connection with the Fair. These boys, members of the Future Farmers of America, will enter livestock, poultry, horticultural and farm mechanics exhibits in competition for prizes totaling $3522. Cups, medals and ribbons will be awarded school teams judging exhibits. Fourteen high schools have entered farm mechanics displays.

$11,000 School Awards

Schools from every part of the state are installing exceptional displays in the main grandstand building, as the educational hall was burned this Spring, to compete for more than $11,000 in cash awards. Cash prizes numbering 120 are offered for handiwork by Boy Scouts, Woodcraft Rangers, Camp Fire Girls and Girl Scouts.

More than 200 California artists, exceeding previous years in number, will have canvases hung in the Art Gallery, while in the same building displays of needlework, china painting, fancy work and home-cooked goodstuffs will compete for $1600 in prizes.

RECOVERY OF METALS FROM SECONDARY SOURCES IN 1930

The values of certain nonferrous metals recovered from secondary sources in 1930 is reported to the United States Bureau of Mines, Department of Commerce, as $193,255,100, which is $173,773,800 less than in 1929, and the total quantity decreased 24 per cent. This decrease in value was partly due to the lower yearly average prices of copper, lead zinc, tin, and antimony in 1930. There were, morevover, large decreases in the quantity of each of the secondary metals recovered.

The shipments of scrap copper and brass to Europe declined and the imports were less in 1930 than in 1929. The smelters that treat mainly primary material produced 26,809 tons less secondary copper in 1930 than in 1929.

There was decrease of 26 per cent insecondary lead reported by regular smelters that treat mainly ore and bullion, and there was also a large decrease in the output of lead in alloys reported by smelters that treat scrap and drosses.

The zinc recovered by redistillation decreased about 12,500 tons, and that recovered by remelting and sweating decreased about 3,600 tons. There were also decreases in the quantities of zinc dust, zinc chloride, and zinc sulphate made from zinc residues and zinc dross.

The detinnning plants treated about 13,400 long tons less clean tin-plate clippings in 1930 than in 1929, and the yield per ton increased considerably. About 69 per cent of the recoveries at detinning plants was as tin content in tin tetrachlordie, tin oxide, and other chemical compounds, compared with 76 per cent in 1929. The only old tin coated containers treated were those used to make window weights and for the precipitation of copper from mine waters; no tin was recovered in these processes.

The turnover of scrap metals and drosses was below normal for plants using metals operated on a much reduced scale. The constantly declining average monthly prices of nearly all metals made the year unprofitable for secandary metal dealers and smelters. There were few business failures among the large operators, and scrap metals were purchased with caution so that holders of secondary metals hope to profit from future advances in prices.

KENNEDY MILL TREATS 9000 TONS ORE MONTH

Sutter Creek. Calif., August 21—After several months of experimenting with the process, the management of the Kennedy Mining and Milling Company, operating the famous Kennedy mine at Jackson, has decided to add oil flotation to the ore reduction method in its 60-stamp mill, it is learned from an authentic source. An order has been placed for a ten-cell unit, as well as the necessary thickeners, classifiers and filters. The installation, costing around $40,000., will be made piecemeal in order not to interefere with the operation of the plant, as a whole. It is understood that the saving in losses in tailings will pay for the new equipment within six months. The Kennedy mill treats an average oof 9,000 tons of ore monthly.

BANK OF AMERICA TO ADOPT NEW SYSTEM

Prompted by the success of its present plan of district management of its Branches, the Bank of America has decided to enlarge and develop the plan to an extent that will make the Branches virtually autonomous and selfgoverning units. In order to bring this about, a new district set-up, built upon the operating structure and mechanism of the present plan, has been decided upon by the administration of the Bank. This new setup will go into effect on September 1st.

The district plan of management, which was instituted a number of years ago, came as the result of an intensive study of branch banking systems elsewhere, and a close boservation of community development throughout the State. The plan enabled the Bank to meet the distinctive problems of the Branches and their respective communities, in a more thorough manner than had been posible in pervious periods. Furthermore, it encouraged a condition wherein the Branch developed added authority to make its own decisions and meet its own peculiar problems without disturbing the general administrative scheme.

With its expansion plans completed to the point where it may further concentrate on the development of its Branch control, the Bank finds it impossible to so adjust the plan that it may vest in the Branches much of the administrative initiative and authority that they enjoyed as independent institututions.

The enlarged set-up calls for the creation of seven districts, each of which shall contain approximately sixty Branches, with an Executive Vice President in charge of each district. Each of these Executives must thoroughly familiarize himself with the Branches under his jurisdiction, so that he may promote individual Branch control to the fullest extent. The plan states, furthermore, that the various departments of the Bank, such as Credit, Trust, Operations, etc., shall serve these Executive Vice Presidents in an advisory capacity, and through them, shall conduct the departmental activities of the Branches.

Coincident with this generalization of departments and the consequent simplification of the whole administrative scheme, it has been found possible to dispense with a number of committees, particularly those which were concerned with Branch details. But four general committees, Executive, Finance, Investment and Managment, will be necessary under the new plan.

Insofar as existing conditions do not rule otherwise, the districts shall be in competition with each other for business, good-will and general prestige. It is intended specifically that the plan shall more fully provide for the distinctive needs of the customer and the community by doing away with the horizontal application of Central Office policies, and by making the Branch the dominant unit in the system.

"It was evident from the very inception of the district plan that it was the most feasible one for the administration of the Bank", A J. Mount, President, said. "While built upon the soundest banking practices and policies, it also took into account California's widely diverse activities, each of which has its own peculiar banking problems.

"Furthermore, in the enlargement of the district plan we will effect a very decided simplification of the Bank's governing set-up, and a distinct localization of the authority of our Branches giving the Branch Executives greater leeway in making decisions regarding the banking needs of their communities. This should not only add to the importance of the Branch but to the development of the community as well.

"The enlarged plan provides a much greater flexibility in the administration of the Bank, a condition that will enable us to develop easily, expeditiously and economically".

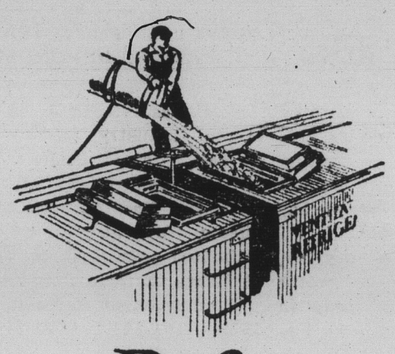
BUILDERS OF CALIFORNIA



Fresh Meats for everyone . . thanks to Refrigeration

7 of the 8 largest meat packing companies operating in California are depositors in Bank of America

COOLED by tons of salted ice, refrigerator cars speed fresh meats to every town and hamlet. But for this modern method, many communities would still depend on salt pork and barreled beef!

Meat packing companies maintain vast systems of distribution in this state—pay five million dollars in annual wages—buy approximately 60 million dollars' worth of California livestock every year.

Credit, extended by Bank of America, helps to provide a year-around cash market for livestock producers.

In distributing meats, the packers also make constructive use of this Bank's statewide service.

Through Bank of America branches in all parts of the state, they accumulate funds collected from dealers.

The Bank promptly forwards these funds to any designated point. Thus large sums that would otherwise remain in transit are released for productive use.

This is one of many economies that enable the packers to conduct their business on a small fraction of the consumer's dollar.

Your banking requirements may be less complex. But whether you desire the most complete commercial facilities, or a sound, convenient depository for savings, Bank of America is equipped to serve you well.

NEW HEADLIGHT LAW FOR AUTOS NOW IN EFFECT

With the amendments to the California Motor Vehicle Law made by the recent legislature going into effect last Friday, there are numerous changes in the headlight provisions which the motorist must acquaint himself with.

Loads projecting four feet or more beyond the rear of a vehicle must display two red lights instead of one that are visible 500 feet to the sides as well as the rear. In daytime a red flag or cloth not less than sixteen inches square must be used.

Only white or approved amber-colored lights are permitted on the front of vehicles except the red lights of authorized emergency vehicles and colored lights of clearance lamps and approved signal devices.

All lights displayed from the rear shall be red except the clearance lights and approved signal devices.

Side or parking lamps shall not be lhgited at the same time head lamps are burning. Parking lights may not be more than three candlepower, must be of white light and must not glare or dazzle.

Vehicles may display running board or "courtesy" lights not greater than three candlepower. White or green are the only colors permissible and they must not glare or be visible except from the side.

Vehicles having a load width in excess of eighty inches shall carry clearance lights on the left side of the vehicle beginning one-half hour after sundown and at all times when there is not clear visibility for 200 feet. They must be blue, located at the front and rear with a visibility of 300 feet, and showing to the side as well as to the front or rear.

If a trailer or semi-trailer is used clearance lights must be displayed on front and rear of both truck and trailer or semi-trailer.

Passenger stages only may display green lights in front.

NEW DISCOVERY ON NORTH FORK CANYON

John Clark of Yankee Hill has discovered a great Lode Deposit on the North Fork of the Feather River extending to an undertermined distance at this date, and embracing a width of many hundreds of feet.

The deposit consists of granodirite and quartz diorite contacted with serpentine and amphibolite. The assayed samples of this deposit are very flattering in gold values, and show traces of platinum, and cobalt. Mr. Clark has named the lode the Platina group. The holdings comprise one section of patented lands and three locations paralelling each other.

Mr. Clark will make every effort to demonstrate the values of this deposit as quickly as possible. He deems it one of the many things which has been overlooked by the pioneer prospector.

There is 100 feet backing from river to apex.

INITIATION NEW BRANCH ORDER JOBS DAUGHTERS

Grass Valley Bethel, U. D., Order of Job's Daughters was instituted Wednesday afternoon in Grass Valley. The afternoon was given over to the inititory work which was put on by Bethel No. 74 of Sacramento42 young women were initiated and comprise the new Bethel, of which Mrs. Therese Hocking is the guardian and Aurora Chapter the active sponsors.

STIFF PROBLEM FOUND IN "GREASY" ROCK

Setbacks and discouragements have marked the operation of the Lost Cabin Mine, thirty miles southeast of Alturas, since it was taken over by A. W. Wylie, a local attorney, several years ago.

Assay after assay has proven that the gold is there, existing in paying quantities even on top of the ground One can pan dirt lying anywhere on the property and get a good paying color. The trouble has been that the rock has some sort of greasy content which makes milling difficult.

With the installment recently of modern machinery, Wylie believes he has solved the problem and expects his property to pay dividends. Thousands of tons of old tailings will be worked by the new machinery.. C. W. Mapes, an old-time Alaskan miner, is in charge of operations, with Clarence Schleuder as chief machanic.

DR. MILES'
Aspir-Mint
Suffering? There's a new, pleasant, mint-flavored, tablet that relieves ordinary headache and neuralgia, muscular pains and functional pains. It's excellent for Coryza—cold in the head—and for the sore throat that often accompanies it.
Physicians have been writing prescriptions for a similar combination for years.
The Dr. Miles Medical Company has standardized this well balanced formula and is glad to offer it in the form of a stable, palatable, mint-flavored tablet for home use. Pocket Size 15c, Regular Package 25c
"YOU'LL GET RELIEF OR YOUR MONEY BACK

YOU BET STORY BY OLD TIMER

In an interview with Mr. Freeman Woodman he gave some very interesting facts about early day mining in the Red Dog and You Bet section excepts of a few of them are given.

He came to California in 1879 arriving in the You Bet section in 1883 at the age of 26 years, when hydraulicking was at its best in the mining camps. At that time there were two stores, owned by Cloudman & Fox and Frank Snell; a hotel, Odd Fellows Hall, three saloons and a school house. All of these buildings have been burned except two that are still standing.

Families living in You Bet were, McCarty's, Husseys, Kales, Ogdens, Davis', Bradys, Albert Chew, Kings. There were about 30 homes in You Bet.

At this time there were 11 hydraulic monitors running and two 10_stamp quartz mills working. Jerry Goodwin was superintendent of the Uncle Sam quartz mine, while Martin Lawrence was superintendent of the Haywood Mine.

Many names of these pioneers will be familiar to local people as there are a number of relatives of those people living in Nevada City. Mr. Ogden a Nevada City resident lived in You Bet at that time.

When living at You Bet Mr. Woodman enjoyed attending dances at that town, Quaker Hill and Dutch Flat, the latter two also being fair sized communities.

The Quaker Hill mining Company which is working at this time was working its gravel properties in the early days and was managed by Mr. Sargent.

John Noyes conducted a hotel in Quaker Hill and was shot by a man by the name of Johnson over money matters. When Johnson was sentenced to 41 years for the killing he was only 21 years old .He remarked "61 years old when I get out."

Red Dog began to decline in the early 80's and by 1886 was practically abandoned. At its height 400 votes were cast in Red Dog showing it was a good sized town. Men were the voters in those days, woman's voting coming in recent years.

Two hyrdaulic properties were being worked in the Scotts Flat Section, which were operated by Wheeler & Roger, and Mr. Hartung.

Hydrulic mining started and kept these three cities going, with the help of the two quartz mines at You Bet which has kept that town alive. Vast hillsides, bluffs and valleys were turned up_side down in the hydraulicking operations.

Mr. Woodman is an active, jolly, and kindly spoken man and one can hardly realize he has lived to witness such changes as have taken place. He has seen the boom times of those communities then the waning of hydraulicking and at the present a revival of all mining with a promise of coming back as good or better than before.

MR. MORGAN IMPROVES OVER RECENT ILLNESS

Mr Ed Morgan, who was taken ill at the Schroeder camp on English Mountain is so far improved over the illness and shock of the deaths of Mr. Schroeder and Judge Mulroy, that he is able to be about again.

Both were friends of long years standing and their passing so suddenly helped to unnerve him.

Mr. Morgan was a deputy under Mr. Schroeder in past years.

Clarke Carter, son of Mr. and Mrs. Wm. Carter of Downieville left Tuesday for Annapolis where he will assume his second year studies at the United States Naval Academy. His grandparents, Mr. and Mrs. R. Carter, and uncle, Sheriff George R. Carter, reside in Nevada City.

NILONS HONOR VISITORS WITH A RECEPTION

Judge and Mrs. F. T. Nilon entertained her niece, Mrs. Edith Morgan Hoffman and family over last week end.

A reception was held Saturday evening in honor of the visitors, so that relatives and old friends might gather for a visit.

Mr. Hoffman, who is head of one of the largest copper concerns in the world, in Chile, returns every three years with his family on a visit to Nevada City and the bay region.

Mrs. Hoffman was formerly Miss Edith Morgan, her parents being the late Mr. and Mrs. D. E. Morgan of Nevada City.

Their daughter, Rachel, and son, John, will attend schools in Virginia and Missouri respectively, the coming school year.

KJORLIES RETURN FROM MOST ENJOYABLE TRIP

Mr. and Mrs. H. E. Kjorlie are home from a summer's vacation and visit spent in the eastern states and the Pacific northwest.

While in the East they attended two golden wedding anniversaries, those of their respective parents.

Mr. Kjorlie has been selected as principal of the Nevada City High School and will be prepared to open school on August 31st.

G. GERONIMI PASSES AWAY

Mr. G. Geronimi went to the Narrow Gauge Railraod depot this morning a little earlier than necessary to his work. He sat down and in a few moments complained of feeling dizzy. Before help had arrived he had passed away.

He has been employed on the rail road about a year, having worked in the mines of Grass Valley for many long years.

He was 65 year of age and leaves to mourn his passing, a devoted wife and two daughters, Mrs. T. Angiolini of Nevada City and Miss Rose Geronimi of Grass Valley.

Mr. Geronimi was well konwn and highly respected by all. He was an industrious man and has a pretty little home in the Hills Flat section.

Mr Geronimi had spent 49 years of his life in Grass Valley. He was affiliated with the Mine Workers Protective League, Grass Valley Nest of Owls and the Forresters.

Holmes-Hooper Funeral Home had charge of the arrangements of funeral.

G C CELIO TENDERS HIS FATHER SURPRISE PARTY

Mr. William B. Celio was honored by a surprise party Monday evening by his son, Gove C. Celio, it being his 72 birthday, August 17th.

A deleicious dinner with a large birthday cake was enjoyed.

Mr. Celio was the recipient of a number of gifts from his business asociate and old time friends.

MR ARTHUR SHARP RAISES FINE GARDEN IN NEVADA CITY

Mr. Arthur Sharp of East Spring Street brought a sample of his long green iuiumbers into The Nugget office last Wednesday. They are quite large and show that gardens as well as flowers are a success in Nevada City yards. He also has a great variety of flowers in blossom at the present time.

He plans on raising a larger flower garden next year and not so many vegetables.

William Litzenberg came up from San Rafael Tuesday enroute to Alleghany where he holds a position with the 16 to 1 Mine.

MISS JANES WILL TEACH IN SANTA CRUZ SCHOOLS

Miss Elizabeth Janes has resigned as teacher of the Washington Grammar School and has accepted the position as speech correction teacher in the Santa Cruz schools.

Miss Janes has attended summer school at Berkeley for two years and last year got her practical experience in speech correction in the local school.

While the many friends of Miss Janes are sorry to see her leave Nevada City they are glad of this opportunity for her to follow her chosen work and their good wishes follow her. Mrs. Janes will make her home in Berkeley with her two sons who are attending University of California.

Congressman and Mrs. Harry L. Englebright have gone to Monterey where they will attend the Redmen and Pocahontas conventions.

RENEWED ACTIVITY AT GOLDEN CENTER MINE

Renewed activity is reported at the Sunrise Mine, three miles southeast of Grass Valley, where a Seattle company is preparing to operate extensively. Application has been made for electric power and the local utilty will start the constrcution of a service line immedately.

Charles DeWhite, the manager, states that orders have been placed for a surface plant of deep development capacity. Charles Washburn, an experienced mining man of Seattle, is superintendent of the property.

Financial adjustment with a group of discoverers of the present vein system was recently effected at Seattle.

Henry Paine, mining man of the North Bloomfield district was a Nevada City visitor Tuesday.
